Those tiny details will take your room from lovely to polished. It's like adding a little mascara; we are beautiful without makeup, but a touch of mascara really draws attention to one of the prettiest features of the face. That's what good hardware is.

## Conga see page 38

### Style: Modern

Inspired by tropical nights and the captivating rhythm of Latin music, the Conga Collection combines tiki-style chic with the clean lines of mid-century minimalism. The end result is a hip, contemporary look that is decidedly unique with its drum-inspired knobs and smooth ergonomic pulls with a subtle groove for added interest.

### Style: Transitional

A collection of knobs and pulls with some serious style! The Oskar collection is so stunning it will match well with any décor with its blend of round shapes and clean lines.

## Oskar see page 108

## Elizabeth see page 62

### Style: Transitional

Notable for its regal detailing and fine finishes, this elegant hardware makes a statement about good taste and quiet luxury. Elizabeth stands out for its sculpted octagonal pulls and crown-inspired knob.

### Style: Traditional

With perfect proportions and exquisitely detailed moldings, this beautiful collection of knobs and pulls is destined to be a perennial favorite. This is classic design at its best, from the flared feet and beveled edges to the slightly arched face plate.
