

**HICKORY**  
HARDWARE®

2019 Edition

---

# OUR STORY

Hickory Hardware® is a value brand marketed by Belwith® Products, LLC. The roots of the company run deep, beginning with the birth of a small foundry in Michigan in 1893. From the humble beginnings of the Keeler Brass Company®, international corporate ownership and multiple mergers, we now emerge as Belwith® Products, LLC, a privately owned and operated firm.

Belwith Products has hundreds of years of staff experience, a living library of designs (dating back to 1900), and a passion to develop unique, inspired hardware. This positions us as the industry leader in kitchen cabinet, architectural, and furniture hardware.

Adding dramatic accent and subtle nuance to your kitchen cabinetry springs from our commitment to Old World craftsmanship, exemplified in every piece of decorative hardware we design and market. By including methods of pencil sketching, hand modeling and finishing, the most modern computer manufacturing tools only serve to compliment and enhance our design process. Technology and engineering back our products while artistry remains front and center.

Knowing design and development are only two facets of operational excellence, significant investment has been made in a world-wide sourcing and distribution network as well. Our engineers travel the globe selecting

world class manufacturers, and our quality assurance team maintains our high standards for functional quality, finish, and craftsmanship through rigorous physical testing and continual product analysis.

Our material management team utilizes the latest in forecasting and material flow technology. We fulfill customer orders on-time and complete direct from the factory, or through our expansive distribution center in Grandville, Michigan.

Belwith Products is comprised of unparalleled experience and talent. Our Grandville staff is fully equipped to handle the needs of retailers, showrooms, OEM manufacturers, and designers to create everyday designs and custom products.

Our commitment to provide consumers with a variety of trendsetting styles and finishes is proven through our extensive assortment of products, unique and convenient packaging, as well as displays and planograms which are always evolving to match current trends. Every step in product development is crucial and we take each step to the next level to ensure we provide the best and freshest products. The Hickory Hardware brand reflects our vision to offer the very best products and service to customers today, while providing continuous improvement in our product offerings and service for tomorrow.

# TRANSITIONAL

A blend of traditional and contemporary styles: classic shapes are softened but not stark; old and new are combined for a fresh new look.

20"	18 5/8" to 20 1/2"	21" to 22 1/2"
22"	20 5/8" to 22 1/2"	23" to 24 1/2"
24"	22 5/8" to 24 1/2"	25" to 25 1/2"

## WEIGHT CAPACITY

Use center mount drawer slides or light duty side mount slides for lower weight capacity.

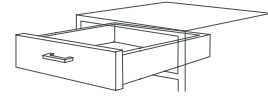

Heavy loads, such as large pots require slides with a weight capacity of 50 - 100lbs.

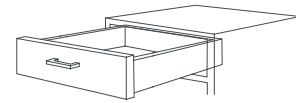

Side mount ball bearing slides are made for this application.

## TRAVEL

Also called extension, travel indicates how far the drawer comes out of the cabinet.

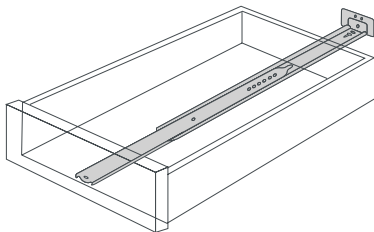

**3/4 Extension:** the drawer opens 3/4 of the drawer length

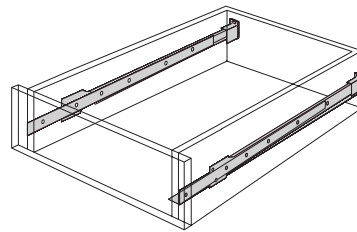

**Full Extension:** the drawer opens the full length of the slide

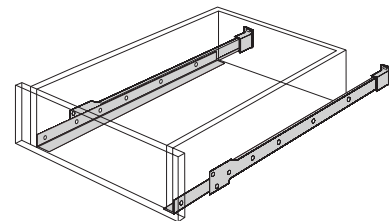

## DRAWER SLIDE MOUNTING TYPES

**Center Mount** drawer slides mount to the drawer's bottom face and along the center. They are concealed when the drawer is extended and are ideal for small, lightweight drawers. Center mount drawer slides are best for use on face-frame cabinets.

**Side Mount** drawer slides attach to the side of the drawer and the side of the inner cabinet. They are visible when the drawer is extended and tend to support more weight. Side mount drawer slides are best for use on frameless cabinets.

**Bottom Mount** drawer slides mount to the bottom or bottom edges of the drawer and to the sides of the drawer. Bottom mount drawer slides are a good option if you are looking for something with more weight capacity.

## TYPES OF ROLLER DRAWER SLIDES

**Ball-Bearing Rollers** offer a smooth glide for your drawer. The bearings are hardened spherical balls that greatly reduce the friction between moving parts.

**Glide Rollers** area of contact is a wheel along a line instead of a ball, which distributes the load weight over a large area.

**Self Closing** - drawer self-closes during the last few inches

**Soft Close** - drawer self-closes softly during the last few inches, prevents door from slamming

**Free Travel** - drawer stays in whatever position it is left

# CHOOSE YOUR DRAWER SLIDE

## CENTER MOUNT DRAWER SLIDE - SEARCH P1175

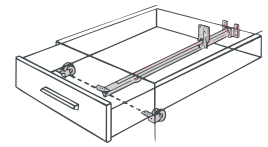

Cut to any length up to 23 1/2" deep

Bracket Slide  
25lb load capacity

Travel:  
3/4 extension

Bottom, Center mount

Fits most drawers

## CENTER MOUNT DRAWER SLIDE - SEARCH P1029

12", 14", 16", 18", 20", 22", 24"

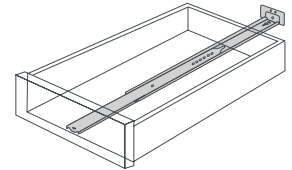

Precision Ball Bearing  
35lb load capacity

Travel:  
3/4 extension

Bottom, Center mount

Precision movement  
ultimate smoothness

Adaptable to cabinets with or without cabinet supports

## SIDE MOUNT DRAWER SLIDE - SEARCH P1336

14", 16", 18", 20", 22"

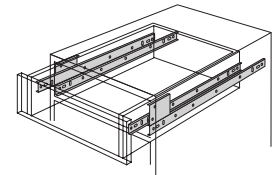

Smooth Glide Rollers  
50lb load capacity

Travel:  
3/4 extension

Self-closing feature  
Easy to install

Standard side mount  
for replacement  
or new construction

Durable epoxy finish

## SIDE MOUNT DRAWER SLIDE - SEARCH P1700

12", 14", 16", 18", 20", 22", 24"

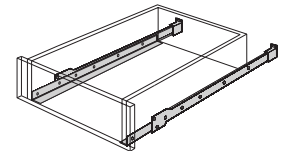

Smooth Glide Roller  
75lb load capacity

Travel:  
3/4 extension

Bottom mount

Heavy Duty  
Maximum Stability

Self-closing feature  
Durable epoxy finish

## SIDE MOUNT DRAWER SLIDE - SEARCH P1050, OR P1055 FOR SOFT CLOSE

12", 14", 18", 20", 22", 24"

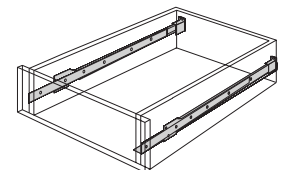

Smooth Glide Roller  
100lb load capacity

Travel:  
Full extension

Side mount

Application:  
Shallow Drawers

Single captive roller  
for maximum stability

## SIDE MOUNT DRAWER SLIDE - SEARCH P1055

12", 14", 16", 18", 20", 22", 24"

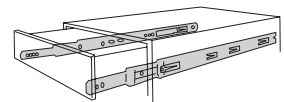

Precision Ball Bearing construction for smooth glide operation

Travel:  
Full extension

100lb load capacity

Allows access to entire drawer, shelf, or pull-out. Ideal for pots & pans

Heavy duty steel

Record the "Part Number" including the hyphen followed by the "Finish Code." Example: P1050/12-2C for 12" length.

## VARIOUS FINISHES

Not to Scale

# HINGE GENERAL GUIDELINES

## REPLACEMENT

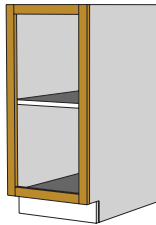

To update the finish, choose the same style. New holes in the cabinet might be required if the style is not the same.

## HINGE QUANTITY

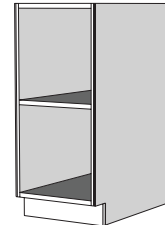

- 2 Hinges: up to 35" door height 20 lbs.
- 3 Hinges: up to 63" door height 20-40 lbs.
- 4 Hinges: up to 78" door height 40-60 lbs.
- 5 Hinges: up to 94" door height 60-80 lbs.

## WHAT TYPE OF CABINET DO YOU HAVE?

**Face Frame:** The cabinet face is constructed of vertical "stiles" and horizontal "rails" that reinforce the cabinet structure and provide mounting support for doors and drawers.

**Frameless:** The cabinet is constructed without any face framing. Doors and drawers are mounted to the sides of the cabinet. Fully concealed hinges are used for the doors.

## WHAT TYPE OF DOOR DO YOU HAVE?

**Flush or Full Inset Door:** Sits completely within cabinet opening, has no edges to grab onto and needs hardware to pull open. Ideally used with face frame cabinets.

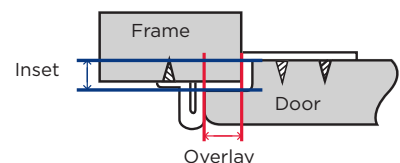

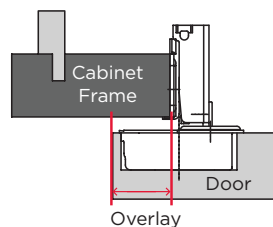

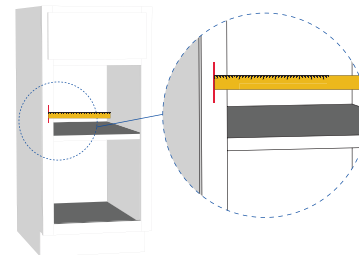

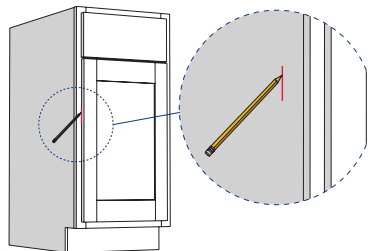

**Partial Inset Door:** Sits partially in cabinet opening and partially across face of cabinet.

**Partial Overlay:** Must be attached to a framed cabinetry. Cabinet door sits slightly apart from one another, revealing a piece of the face frame.

**Full Overlay:** Sits fully across face of cabinet with no reveal.

## MEASURING OVERLAY

1. Close Cabinet Door.
2. Use pencil and make a small mark on the cabinet frame directly against the hinged side of the door.
3. Open the cabinet door (or remove the door) and measure from the pencil mark to the opening of the cabinet.

# CHOOSE YOUR HINGE

Do you want decorative (surface), purely functional (concealed) or both (semi-concealed)? Now that you know the type of cabinet & door you have, with an overlay measurement, you can choose from a variety of hinge styles to fit your needs. The hinge you choose may have more than one trait.

## VISIBILITY

**Surface:** The hinge mounting is visible, mounted on the outside of the cabinet.

**Concealed:** The hinge is hidden, mounted on the inside of the cabinet.

**Semi-Concealed:** A part of the hinge is showing, typically the cabinet wing is exposed and the door wing is concealed.

## CLOSING

**Soft Closing:** Door self closes softly during the last few inches, prevents door from slamming.

**Self Closing:** Door self closes during the last few inches.

**Free Swinging:** No built-in closing mechanism, door prone to slamming.

## WRAP

**Full Wrap:** Wraps around three sides of the cabinet body.

**Partial Wrap:** Wraps around two sides of the cabinet body.

## FLUSH OR INSET

**Flush:** Hinge door wing mounts straight across back of door.

**Inset:** Hinge door wing is shaped to fit 3/8" rabbet on doors for partial inset applications.

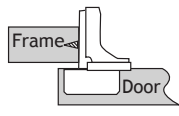

## CONCEALED, SOFT CLOSE

**Concealed:** The hinge is hidden, mounted on the inside of the cabinet.  
**Soft Close:** Door self closes softly during the last few inches, prevents door from slamming.

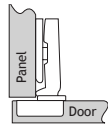

**Face Frame**

- 106° Opening
- With 1/2", 3/4", 1-1/4" and 1-3/8" Overlays
- Polished Nickel Finish
- HH74716-14 Shown

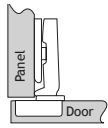

**Frameless**

- 105° Opening, Full Overlay
- Titanium Finish
- HH74723-TT Shown

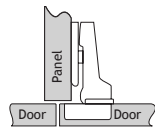

**Frameless**

- 105° Opening, Full Overlay
- Polished Nickel Finish
- HH74720-14 Shown

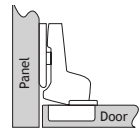

**Frameless**

- 105° Opening, Half Overlay
- Polished Nickel Finish

# ELECTRONIC KEYPAD DEADBOLT

CONTEMPORARY  
Model shown: HH075773-SN

TRADITIONAL  
Model shown: HH075772-SN

TRANSITIONAL  
MODEL SHOWN: HH075774-SN

## TOP FEATURES

### SECURITY

- ANSI/BHMA Grade 2-3 security
- Back-up key override
- Limited lifetime mechanical warranty
- 1-year electrical warranty
- Automatic relocking mode

### CONVENIENCE

- No need to carry keys
- Easy installation with a screw driver
- Fits both right and left hand doors
- Backlit keypad for increased visibility
- Low battery indicator

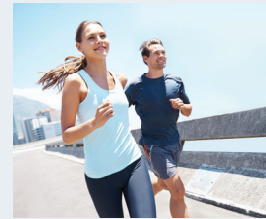

### CONTROL

- Up to 10 sets of user codes
- Multiple user codes can be turned off as needed (vacation mode)
- Operated by 4 AA batteries (not included)
- Single entry code for one time use only

## YOU ARE IN CONTROL

### EASE AT YOUR FINGERTIPS

Never worry about losing your keys or locking yourself out of your home

### VACATION MODE

Enable vacation mode and leave your home secure when you are away by turning off multiple user codes

### ONE TIME USE

Provide temporary access to servicers at the click of a button

# HICKORY SMART - BLUETOOTH ENABLED DEADBOLT

# HICKORY<sup>®</sup>

S M A R T

The Bluetooth<sup>®</sup> enabled deadbolt, powered by Securemote<sup>™</sup>, guarantees control, security, and convenience.

# HICKORY SMART - BLUETOOTH ENABLED DEADBOLT

## What is Securemote® ?

Securemote® smart technology allows home products to communicate to your smart device when Bluetooth technology is enabled.

All your Securemote smart products can be managed under one platform for full home control, security, and convenience.

## CONTROL

- Control access through your Smartphone or the keypad.
- Unlimited users through the online portal, up to 10 on the app.
- Push notifications alert you when your door is opened.
- Securemote™ Smart technology

## SECURITY

- Auto lock: optional to lock every time you leave your door.
- Vacation Mode
- Grade 3 ANSI/BHMA Security

## CONVENIENCE

- Works with IOS and Android.
- Bluetooth® Low Energy supports long battery life: 18-24 months
- Illuminated keys
