The following steps will guide you through the process of capturing the information your Design Consultant will need.

This is a preliminary step to capture some measurements and pictures.

Don't worry about getting it perfect. Your Design Consultant will conduct a professional site measurement once you progress to the next step, which is the formal design of your dream kitchen!

What you will need:

A printed copy of this guide to record your dimensions

A tape measure

A pen or pencil

Your phone for pictures

Optional: Graph Paper if you want to draw your space

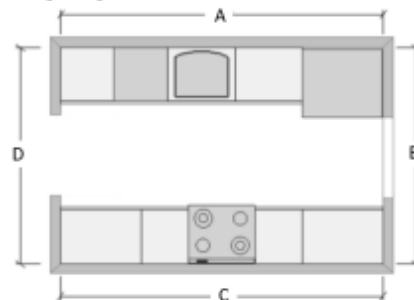

### Measuring the space

1. What shape best represents is your kitchen layout?
